## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 65 and 68-103 (renumbered as claims 1-37) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 65 and 68-91, applicant's claimed invention can be distinguished from prior art by the limitation of "*opening the grains* which form HSG," (which is different than "forming HSG" *without* "opening the grains"), especially in the claimed combination with "forming a dielectric layer comprising aluminum oxide" and "forming a metal nitride layer over the dielectric layer."

Regarding claims 92-103, applicant's claimed invention can be distinguished from prior art by the particular combination of "forming a dielectric composite stack comprising aluminum oxide," such as by "ALD," and "forming an upper capacitor electrode of tungsten nitride."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
